Virginia Municipal Cash Trust	VCSXX	<input type="checkbox"/>

A money market mutual fund investment is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although a money market mutual fund seeks to maintain a stable net asset value of \$1.00 per share, there is no guarantee that it will be able to do so (it is possible to lose money by investing in such a fund).

Money market mutual funds other than the specific funds listed above may be available to be established as the sweep option for your account. Please contact your Financial Advisor or Vision's Client Services team for more information.

If you purchase a mutual fund through Vision, the fund may pay Vision a fee for the sale of the fund shares and on-going related services. This may create a conflict of interest by influencing your Vision Financial Advisor to recommend the fund over another investment.
